CEO & Founder

Setpoint

New York, NY

ABOUT

Stuart Wall is the CEO and Co-founder of Setpoint.io, a leading fintech platform modernizing the infrastructure behind billions in daily private credit and capital markets transactions. Backed by Andreessen Horowitz, Citi, and Wells Fargo, Setpoint is replacing outdated manual workflows with automated, transparent systems—accelerating deal velocity and dramatically lowering costs for the world's largest financial institutions.

COMPANY BIO

Behind every loan is a web of fragmented infrastructure. Despite the scale of private credit markets, lenders and originators still rely on spreadsheets, email threads, and legacy systems to manage funding operations. These manual processes introduce risk, slow down capital deployment, and constrain growth.

Setpoint is building the modern infrastructure layer for credit. Our platform replaces operational ...
