Iowa Trust and Savings Bank Selects Teslar Software to Modernize Lending Operations and Streamline Document Workflows

Share      ...

EMMETSBURG, Iowa--(BUSINESS WIRE)--Iowa Trust and Savings Bank is partnering with Teslar Software to enhance efficiency and transparency across lending and credit administration processes. The partnership will support the bank's efforts to modernize operations through a paperless, centralized system that simplifies document management and improves visibility.

"Tying Teslar directly to our core and imaging systems will make it easier for our teams to get what they need when they need it," said Sara Bonnstetter, Vice President – Loan Administration Officer at Iowa Trust.

easier for our teams to get what they need when they need it," said Sara Bonnstetter, Vice President – Loan Administration Officer at Iowa Trust.

"Teslar's inspection tools will streamline how we get information in and out of our core. Combined with clear visibility into our exceptions tracking, that transparency will save time for lenders and back office teams alike," said Tim Bonert, Vice President – Commercial Lending.

The partnership supports Iowa Trust's goals of reducing manual exception aging, accelerating construction draw turnaround times, minimizing dependencies on shared folders and email, and creating better visibility for both lenders and operations teams.

"From a credit standpoint, I'm looking forward to Teslar's Exceptions tools so we can easily track what we have and what we still need. Right now, when we need something, we go look for it in the moment. Teslar will streamline how we gather and manage the financial data we need," said Jason Tuel, Vice President at Iowa Trust.

About Iowa Trust and Savings Bank

Iowa Trust believes in real people doing real banking. We are built on a foundation of strong relationships between the people we serve, the communities we live in and the employees who represent our financial institution.
