developed an ecosystem of 50+ integrated third parties, which Socure will continue to support.

The company has attracted customers in the banking and fintech sectors, and Socure plans to build on that to accelerate Effectiv's commercial adoption by leveraging its over 1,000 banks and 500+ fintech partnerships.

The MFA Identity Trap: When Authentication Creates a False Sense of Security

Organizations must distinguish identity verification, authentication and threat detection, or risk successfully authenticating the attackers they are trying to stop. (Torsten George)
