Number Go Up

Inside Crypto's Wild Rise and Staggering Fall

A best book of the year from the New York Times DealBook, the Washington Post, the Financial Times, Wired, and many more.

[Amazon](#) / [Bookshop](#) / [Barnes & Noble](#) / [Audible](#)

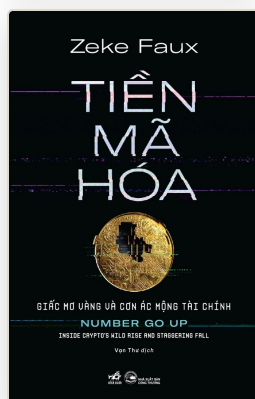

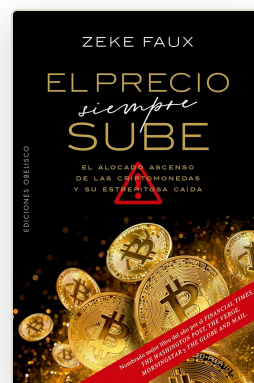

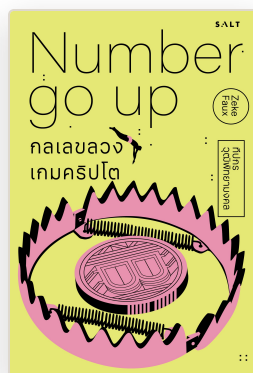

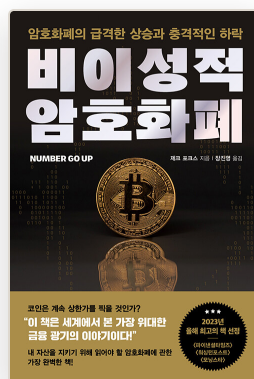

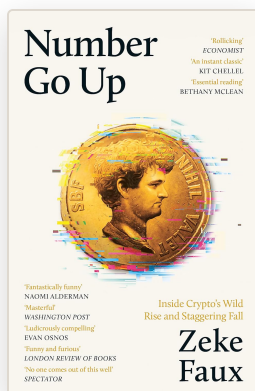

The “rollicking” (*The Economist*), “masterfully written” (*The Washington Post*) account of the crypto delusion, and how Sam Bankman-Fried and a cast of fellow nerds and hustlers turned useless virtual coins into trillions of dollars—

hailed by Ezra Klein in *The New York Times* as one of the “Books That Explain Where We Are.”

“Combines sharp analysis, intrepid reporting, and punchy writing.”—*The Wall Street Journal*

“Everybody’s talking about the wrong Sam Bankman-Fried book. . . . Faux’s rollicking *Number Go Up* . . . is the far superior guide to understanding the FTX debacle and Bankman-Fried himself. . . . This is the strength of *Number Go Up*: It doesn’t pretend there’s something inside, just beyond our reach.”—*Wired*

“A globe-trotting nonfiction picaresque that’s as much fun as you can have reading about financial malfeasance.”—*Los Angeles Times*
